

Amblecote Primary School

Child Protection Policy Safeguarding Children

Responsibility for monitoring this policy: Head teacher as Lead DSL

Review Annually
(or in response to changes in legislation/LA operating procedures)

Updated June 2020

Review date July 2021

Proposed by the Acting Headteacher.....*J Cook*.....Mrs J. Cook

Approved by Governing Body.....*[Signature]*.....Mrs C. Roberts (Chair of Governors)

Contents

Rationale and aims

Appendix 5 – Covid 19 Addendum

Rationale

Children and young people have a fundamental right to be protected from harm. They have a right to expect schools to provide a safe and secure environment. It is a guiding principle of the law and child protection procedures that the protection and welfare of a child must always be the first priority. Failure to provide an effective response can have serious consequences for the child.

Safeguarding is defined as –

- Protecting children from maltreatment;
- Preventing impairment of children's health or development;
- Ensuring that children are growing up in circumstances consistent with the provision of safe and effective care; and
- Taking action to enable all children to have the best life chances.

Amblecote Primary School is committed to safeguarding and promoting the welfare of all children and young people both within the school environment and outside (a child centred approach). Because of our day-to-day contact with children and young people, education staff are particularly well placed to observe outward signs of abuse, changes in children's behaviour or their failure to develop. We need, therefore 'to be alert to the possibility of abuse occurring, be aware of the procedures to be followed if you have suspicions and have the confidence to follow those procedures.' This policy applies to all staff, governors and volunteers working in the school.

See Page 13-14 **Definitions and Indicators of Abuse**

Amblecote Primary School recognises its legal duty under s.175/157 Education Act 2002 to work with other agencies in safeguarding and promoting the welfare of children and young people and protecting them from "significant harm". The protection of our pupils from suffering or likely to suffer significant harm is the responsibility of all staff within our school, superseding any other considerations. The following documents, circulars and guidance for good practice govern child protection work at Amblecote Primary School:

- Dudley Safeguarding Children Board (DSCB) - Safeguarding Children Procedures (<http://safeguarding.dudley.gov.uk>);
- Dealing with a disclosure school guidance (See Appendix 1)
- Children Act 1989;
- Children Act 2004;
- Education Act 2002;
- Childcare Act 2006 (as amended 2018)
- Working Together to Safeguard Children (DfE) July 2018;
- Keeping Children Safe in Education (DfE) September 2020;
- Guidance for Safer Working Practice for those working with Children and Young People in Education Settings (May 2019);
- Section 5B of the Female Genital Mutilation Act 2003 (as inserted by section 74 of the Serious Crime Act 2015)
- Dealing with Allegations of Abuse against Teachers and Other Staff (2012)
- DSCB interagency child protection and safeguarding procedures
- What do you do if you are worried a child is being abused March 2015; (See Appendix 2)
- The Prevent Duty June 2015 (under section 26 of the Counter Terrorism and Security Act 2015)
- Information sharing advice for safeguarding practitioners (DfE – updated 2018)
- Children Missing Education (September 2016)
- Child Sexual Exploitation (February 2017);
- Voyeurism (Offences) Act 2019
- Teaching Online Safety in School (DfE) June 2019
- When to call the police – National Police Chiefs Council (NPCC)

Aims

Amblecote Primary School is committed to the safeguarding of all pupils in the school. Our aim is to ensure that all pupils are safe in school and that measures are put in place to support any child who is at risk of harm. Overall the policy provides information for all adults working with children to carry out their duty of care responsibly.

Amblecote Primary School will provide information and training for all staff and other adults to carry out this duty of care responsibly.

Prevention

The six main elements of the policy are:

- ensuring we practice safe recruitment in checking the suitability of staff and volunteers to work with children;
- raising awareness of child protection issues and equipping children with the skills needed to keep them safe and support mental wellbeing;
- implementing procedures for identifying and reporting cases, or suspected cases, of abuse;
- supporting pupils who have been abused in accordance with his/her child protection plan;
- establishing a safe environment in which children can learn and develop;
- ensuring there are links with other safeguarding policies and practice, for example, physical intervention, anti-bullying, behaviour policy, attendance, medical conditions, first aid, intimate care, emergency evacuation, educational visits, sexual exploitation, sexting, disability, homophobic abuse, racism, domestic abuse, female genital mutilation, radicalisation and extremism, the safeguarding response to children who go missing from education, and ensuring that the identity of the DSL and deputies are included within school systems to support safeguarding and are explained to all staff as part of their induction. (Further guidance on these issues is available on the LA website- see links on pages 14 and 15)

We recognise that high self-esteem, confidence, supportive friends and good lines of communication with a trusted adult help prevention. The school will therefore:

- establish and maintain an environment where children feel secure, are encouraged to talk, and are listened to;
- ensure children know that there are adults in the school whom they can approach if they are worried or in difficulty;
- include in the curriculum, activities and opportunities which equip children with the skills they need to stay safe from harm.

Procedures

Amblecote Primary School will ensure that all staff follow the procedures set out by the Dudley Safeguarding Children Board and take account of guidance issued by the Department for Education (DfE) to:

- ensure we have a designated safeguarding lead for child protection who has received appropriate training and support for this role. The formal training will be updated every 2 years. The DSL will be updated on a regular basis (at least annually) to keep up with current safeguarding developments and priorities.

THE DESIGNATED SAFEGUARDING LEAD FOR AMBLECOTE PRIMARY SCHOOL IS

JANE COOK (Acting HT) jcook@amblecote@dudley.sch.uk

THE DEPUTY DESIGNATED SAFEGUARDING LEAD FOR AMBLECOTE PRIMARY SCHOOL IS:

MARIE PICKETT (Acting DHT & Year 5/6 Phase Leader) mpickett@amblecote@dudley.sch.uk

ADDITIONAL DESIGNATED SAFEGUARDING LEAD FOR AMBLECOTE PRIMARY SCHOOL ARE:

LAURA SKIRVING (Year 3/4 Phase Leader) lskirving@amblecote@dudley.sch.uk

JODIE CARELESS (Year 1/2 Phase Leader) jcareless@amblecote@dudley.sch.uk

ALEX PRICE (EYFS Phase Leader) aprice@amblecote@dudley.sch.uk

GILLIAN DUNCKLEY (EYFS & KS1 SENCo) gdunckley@amblecote@dudley.sch.uk

DEB GERMAN (KS2 SENCo) dgerman@amblecote@dudley.sch.uk

JOANNA SPARROW (Attendance Officer) jsparrow@amblecote@dudley.sch.uk

HAYLEY PERIGO (Pre-School Manager) hperigo@amblecote@dudley.sch.uk

EVE BRADLEY (Time for Twos Manager) ebradley@amblecote@dudley.sch.uk

Child Protection issues can be very difficult to spot. If in doubt, it is always best to inform the relevant person, and allow them to make the decision about what further action is necessary.

The Lead DSL and the deputies are most likely to have a complete safeguarding picture and will be the most appropriate individuals to advise on any safeguarding concerns. If the DSL is unavailable, a Deputy Leader will be the next point of contact and also the additional DSLs. If in doubt, ask.

If you have concerns during school holidays or when school is closed, you can call the children's services referral and advice service on 0300 555 0050 during office hours (9am - 5pm), contact the Emergency Duty Team on 0300 555 8574 (out of hours)

- We have a nominated governor responsible for child protection.

THE DESIGNATED GOVERNOR FOR CHILD PROTECTION IS MRS JANE NETHERCOTT

CHAIR OF GOVERNORS IS MRS CLAIRE ROBERTS

- ensure every member of staff (including temporary and supply staff and volunteers) and governing body members knows the name of the designated safeguarding lead responsible for child protection and their role;
- ensure all staff and volunteers understand their responsibilities in being alert to the signs of abuse and responsibility for referring any concerns to the designated safeguarding lead responsible for child protection;
- ensure that parents have an understanding of the responsibility placed on the school and staff for child protection. Parents should be made aware of the policies and procedures;

- ensure that parents are aware that this policy is available on request, and make the policy available on the school website;
- develop effective links with relevant agencies and co-operate as required with their enquiries regarding child protection matters including attendance at child protection meetings;
- develop links with other agencies that support the child, such as Child and Adolescent Mental Health Service, Education Investigation and Education Psychology Service;
- keep written records of concerns about children (noting date, event and action taken), even where there is no need to refer the matter to Social Services and other relevant agencies immediately;
- ensure all records are kept securely, separate from the main pupil file, and in locked locations;
- ensure that if a child who has a child protection plan leaves, their information is transferred to the new school immediately and Social Care is informed;
- ensure that all staff are aware of what to do if there are concerns around a child. **Appendix 2 refers to *What to do if you are concerned***. A copy of the interagency referral form that must be completed when making a referral can be accessed from the DSCB website. The DSL should be consulted for completion of this form.

Role and Responsibilities of Designated Safeguarding Lead

The Designated Safeguarding Lead is the Acting Headteacher. She has responsibility and management oversight and accountability for child protection. Deputy DSLs are trained to the same standards as the DSL and the role is explicit within their job description. DSL training is undertaken every 2 years and has been updated to allow the DSL to recognise the additional risks that children with SEN and disabilities (SEND) face online, for example, from online bullying, grooming and radicalisation and are confident that they have the capability to support SEND pupils to stay safe online.

When the school has concerns about a child, the Designated Safeguarding Lead will decide what steps should be taken.

The key role of the Designated Safeguarding Lead is to:

- to promote the educational outcomes by knowing the welfare, safeguarding and child protection issues that children in need are experiencing, or have experienced, to identify the impact that these issues might be having on children's attendance, engagement and achievement at school.
- to ensure that the school is aware of children who currently need a social worker, and have an understanding of their academic progress and attainment, maintaining a culture of high aspirations for them.
- support teaching staff to feel confident, to provide additional academic support or reasonable adjustments to support children who need or have needed a social worker to reach their potential, recognising that even when statutory social care intervention has ended, there is still a lasting impact on children's educational outcomes.
- manage referrals from school staff or any others from outside the school;
- work with external agencies and professionals on matter of safety and safeguarding;
- undertake training;
- raise awareness of safeguarding and child protection amongst the staff and parents;
- ensure that child protection information is transferred to the student's new school;
- to ensure that the use of technologies such as CCTV and walkie talkies are used appropriately and used in line with associated school policies.

Child protection information will be dealt with in a confidential manner.

Staff will be informed of relevant details only when the Designated Safeguarding Lead feels their having knowledge of a situation will improve their ability to deal with an individual child and/or family. Staff should only involve those who need to be involved when a child tells them that he/she is being abused or neglected.

A written record will be made of what information has been shared with whom, and when. **(Written records at Amblecote are made using the CPOMS online database).** Child protection records will be stored securely on the CPOMS database separate from academic records. Individual files will be kept for each child: the school will not keep family files. Files will be kept for at least the period during which the child is attending the school, and beyond that in line with current data legislation and guidance. Access to these records by staff other than by the Designated Safeguarding Lead will be restricted.

Historic child protection records (which may include family files) will be stored securely in a central place separate from academic records. Historic individual files will be kept for each child: the school will not keep family files moving forward. Files will be kept for at least the period during which the child is attending the school and transferred to a new school, and beyond that in line with current data legislation and guidance.

Access to these records by staff other than by the Designated Safeguarding Lead will be restricted.

Parents will be aware of information held on their children and kept up to date regarding any concerns or developments by the appropriate members of staff. General communications with parents will be in line with our home school policies and give due regard to which adults have parental responsibility. In keeping with best practice, the school will hold more than one emergency contact number for each pupil.

The Data Protection Act 2018 and GDPR do not prevent, or limit, the sharing of information for the purposes of keeping children safe.

This includes allowing practitioners to share information without consent.

[Information Sharing: Advice for practitioners providing safeguarding services](#)

Do not disclose to a parent any information held on a child if this would put the child at risk of significant harm.

If a pupil moves from our school, the DSL will consider whether it is appropriate to share any information with the new school in advance of the pupil leaving. Child protection records may be forwarded on to the Designated Safeguarding Lead at the new school, with due regard to their confidential nature and in line with current government guidance on the transfer of such records. Direct contact between the two schools may be necessary, especially on transfer from primary to secondary schools or in instances where advance information would allow the new school to continue supporting the victim of abuse and have the appropriate support in place for the pupil's arrival. We will record where and to whom the records have been passed and the date.

If sending by post pupil records will be sent by "Special/Recorded Delivery". For audit purposes a note of all pupil records transferred or received should be kept in electronic format on our Integris Information Management System (under – activities). This will include the child's name, date of birth, where and to whom the records have been sent and the date sent and/or received.

If a pupil is permanently excluded and moves to a Pupil Referral Unit, child protection records will be forwarded on to the relevant organisation.

When a Designated Safeguarding Leader resigns their post or no longer has child protection responsibility, there will be a full face-to-face handover/exchange of information with the new post holder.

Staff support

We recognise the stressful and traumatic nature of child protection work. We will support staff by providing an opportunity to talk through their anxieties with the Designated Safeguarding Lead and seek further support as appropriate.

Roles and Responsibility of Governors and Governing Bodies

It is the responsibility of governing bodies to ensure that they comply with their duties under legislation. They must have regards to this guidance to ensure that the policies, procedures and training in their schools are effective and comply with the law at all times.

The guidance, Keeping Children Safe in Education places statutory requirements on all governing bodies. The designated child protection governor and other members of the governing body undertake regular safeguarding training and receive regular updates in order to ensure that they know what good practice looks like. The governing board ensures that their school has policies and procedures in place and take into account any guidance issued by the Secretary of State, any LA guidance and locally agreed inter- agency procedures.

Safer Recruitment and Employment Practices

Amblecote Primary School has created a culture of safe recruitment, and has adopted the Local Authority policy on recruitment procedures. Amblecote Primary School will follow the 'Safer Recruitment' processes for all appointments, which will include the following;

- declaration of our statement of commitment and the intent to undertake a DBS check in the advertisement;
Our statement of Commitment
"Amblecote Primary School is committed to safeguarding and promoting the welfare of children and young people and expects all staff and volunteers to share this commitment. All posts are subject to Enhanced DBS Clearance, TRA Teacher Services, Qualification and ID Checks."
- ensuring that at least one member of the interview panel has attended DSCB Safer Recruitment Training;
- ensuring that references are gained before interview;
- ensuring that a safeguarding question is included in the interview;
- ensuring that any gaps in employment are explored at interview;
- undertake a DBS check* at the relevant level to the position of staff and governors in line with the new DBS government workforce guide and Disqualification under the Child Care Act for staff who work in a child care capacity, whether paid, volunteer or in work placements (a change in the law means that Disqualification by Association now only applies in domestic settings, not schools). Relationships and associations that staff have in school and outside (including online), may have an implication for the safeguarding of children in the school. Where this is the case, the member of staff is required to speak to the school.
- All governors now require an Enhanced DBS check and new appointments are TRA checked for Section 128 prohibition from governance
- Prohibition of teaching checks must be completed for everyone engaged in 'teaching work', whether a qualified teacher or not: and must be appropriately recorded on the Single Central Register. A teaching role is defined as planning and preparing lessons and courses for pupils, delivering lessons to pupils, assessing and reporting on the development, progress and attainment of pupils, however, these activities are not classed as teaching work for the purposes of Keeping Children Safe in Education regulations if the person carrying out the activity does so (other than for the purposes of induction) subject to the direction and supervision of a qualified teacher or other person nominated by the head teacher to provide such direction and supervision
- Where the school places a pupil with an alternative provision provider, the school will ensure that there is appropriate safeguarding provision in place to meet the needs of the pupil and will ensure that written confirmation is obtained regarding safeguarding checks carried out on those working at the establishment.
- ensure checks are carried out for individuals who have lived or worked abroad for more than three months during their adult life. Where these checks are not able to be completed the school will carry out a risk assessment in every instance.

(*An enhanced DBS check with barred list information will be appropriate for all staff as the majority of staff will be engaging in 'regulated activity'. A supervised volunteer who regularly teaches or looks after children is not deemed to be in 'regulated activity'. In case of staff or volunteers who provide personal care, this includes helping a child with eating and drinking and for reasons of illness, or in connection with toileting, washing, bathing and dressing for reasons of age, illness or disability)

If the school has reason to believe that an individual is barred, it commits an offence if it allows the individual to carry out any form of regulated activity. There are penalties of up to five years in prison if a barred individual is convicted of attempting to engage in such work.

All new appointments will have their identity verified from a current photographic ID and proof of address to obtain an enhanced DBS check with barred list information. The school will always ask for written information about previous employment history and check that the information is complete.

All relevant checks for Sports Coaches and extra-curricular activity leaders, who are not directly employed by the school, are carried out through the 'Safeguarding in School Sport' (SiSS) online portal to which the school pays an annual subscription.

The school does not have the power to request DBS checks for visitors (for example children's relatives visiting a sports day) on these occasions the Head Teacher will use their professional judgment on how best to supervise these occasions.

Disqualification under the Childcare Act 2006

Changes to Disqualification under the Childcare Act 2006, as amended by the Childcare (Early Years Provision Free of Charge) (Extended Entitlement) (Amendment) Regulation 2018 have been made, following a consultation into Disqualification under the Childcare Act 2006. The new legislation came into force on 31st of August 2018.

In the recent past, staff providing child care could, in certain circumstances, be prohibited from working with children because of the convictions made by someone who lives in their household. This is no longer the case.

Disqualification by Association now only applies in domestic premises, not to schools. However, staff working in child care may still be disqualified because of offences committed by themselves. Relevant people include anyone working with children of reception age or younger and children between five and eight years old in and out of the school setting (like breakfast clubs or afterschool care).

All staff at Amblecote are made aware that their 'relationships and associations' (including online) may have a safeguarding implication.

Allegations of Abuse Made Against Other Children (Peer on Peer Abuse)

At Amblecote we believe that all children have a right to attend school and learn in a safe environment. Children should be free from harm by adults in the school and other pupils.

We recognise that some pupils will sometimes negatively affect the learning and wellbeing of others and their behaviour will be dealt with under the school's Behaviour Policy.

Occasionally, allegations may be made against pupils by others in the school, which are of a safeguarding nature. Safeguarding issues raised in this way may include physical abuse, emotional abuse, online abuse, verbal abuse, threats or intimidation, blackmail or extortion, sexual abuse, sexting, indecent exposure and sexual exploitation. It is likely that, to be considered a safeguarding allegation against a pupil, some of the following features will be found.

The allegation:

- is made against an older pupil and refers to their behaviour towards a younger or a more vulnerable pupil
- is of a serious nature, possibly including a criminal offence
- raises risk factors for other pupils in the school
- indicates that other pupils may have been affected by this pupil
- indicates that young people outside the school may be affected by this pupil

Staff should be aware that safeguarding issues can manifest themselves via peer on peer abuse. This is most likely to include, but not limited to:

- bullying (including cyberbullying);
- physical abuse such as hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm;
- sexual violence and sexual harassment;
- gender-based violence
- sexting (also known as youth produced sexual imagery); and
- initiation-type violence and rituals.

Abuse is abuse and should never be tolerated or passed off as “banter” or “part of growing up”. Different gender issues can be prevalent when dealing with peer on peer abuse. This could for example include girls being sexually touched/assaulted or boys being subject to initiation-type violence.

Minimising the risk of safeguarding concerns towards pupils from other pupils

On occasion, some pupils may present a safeguarding risk to other pupils. These pupils will need an individual risk management plan to ensure that other pupils are kept safe and they themselves are not laid open to malicious allegations. There is a need to balance the tension between privacy and safeguarding.

When dealing with such incidents, they will usually, in the first instance, be investigated by the class teacher. If there is a safeguarding concern it will then be passed to the DSL/ senior leadership team; Head teacher and, in extreme cases, the Governing Body. At the Head teacher’s discretion, the police may be informed, in certain circumstances and parents informed (of both the pupil being complained about and the alleged victim) at the earliest opportunity. [Amblecote will follow the NPCC ‘When to call the police’ guidance.](#)

The DSL should contact social services to discuss the case. The DSL will follow through the outcomes of the discussion and make a social services referral where appropriate. The DSL will make a record of the concern, the discussion and any outcome and keep a copy in both pupils’ files.

It may be appropriate to exclude the pupil being complained about for a period of time according to the school’s behaviour policy and procedures.

Where neither social services nor the police accept the complaint, a thorough school investigation should take place into the matter using the school’s usual disciplinary procedures.

In situations where the school considers a safeguarding risk is present, a risk assessment should be prepared along with a preventative, supervision plan.

The plan should be monitored and a date set for a follow-up evaluation with everyone concerned.

We recognise that every case will be unique and that they may need to be dealt with in a variety of ways.

To minimise the risk of peer on peer abuse the school has an ethos of promoting friendship and cooperation. Through assembly time, PSHE, RSE and other curriculum areas the children are taught tolerance, empathy and understanding. Amblecote has Anti-Bullying Ambassadors in each class to support friendly play and co-operation and act as a mentor in peer fallouts, upsets and arguments etc. or to inform an adult if situations cannot be sorted.

Allegations Against Staff and Volunteers

This is not the responsibility of the Designated Safeguarding Lead.

Amblecote Primary school will follow the “Managing Allegations Against Staff or Volunteers’ (DSCP Procedures) and will have regard for the DfE ‘Harm Test’ guidance in respect of all cases in which it is alleged that a teacher or other member of staff, including volunteers, has:

- Behaved in a way that has harmed a child, or may have harmed a child
- Possibly committed a criminal offence against or related to a child
- Behaved towards a child or children in a way that indicates he or she may pose a risk of harm to children

- Behaved or may have behaved in a way that indicates that they may not be suitable to work with children. This is to take account of situations where a person's behaviour outside of school may suggest 'transferable risk'. For example, where a member of staff or volunteer is involved in an incident outside of school which did not involve children but could have an impact on their suitability to work with children.

The **Head Teacher** will deal with allegations made against school staff.

All staff have access to the counselling service within Dudley Council.

If any concerns or allegations are made against members of staff, in the first instance these should be discussed with the Designated Officer for Managing Allegations (DO) or Duty Independent Reviewing Officer. It is useful at this stage to also provide full names of the member of staff and child involved in the allegation, their dates of birth, addresses and details of any previous concerns, as this will avoid delay. All allegations against people who work with children will be passed on to the Designated Officer (Managing Allegations) in accordance with the Working Together to Safeguard Children (2018) and the DSCP Safeguarding Children Procedures.

A Managing Allegations Referral form will need to be completed.

In the event of the allegation being made against the Head Teacher, the **Chair of Governors** is to be notified. Contact details for our chair of governors can be found in the staff handbook and on our safeguarding notice board situated in the staffroom. Claire Roberts – CRoberts@amblecote.dudley.sch.uk

If an allegation is made against any governor, including the Chair of Governors, the Head Teacher will contact the LA appointed Designated Officer.

- if any allegation is made a quick resolution should be a clear priority. If the nature of the allegation does not require formal disciplinary action, the school will endeavour to instigate appropriate action within three working days;
- in response to an allegation all other options should be considered before suspending a member of staff;
- allegations that are found to be malicious should be removed from the personnel records;
- pupils that are found to have made malicious allegations are likely to have breached school behaviour policies; the school will therefore consider the appropriate sanction;
- reporting restrictions only apply to teachers in schools;
- we as the employer have a duty of care to all staff; support for the individual is the key to fulfilling this duty;
- when an allegation is made it is extremely important that every effort is made to maintain confidentiality;
- after any allegations of abuse have been made, the outcome will be categorised as either; substantiated, malicious, false, unsubstantiated or unfounded;
- where an allegation has been substantiated and the individual is dismissed or resigns, the school may consider referring the matter to the TRA for consideration for a prohibition order.

In addition to this Amblecote Primary School have routine systems for continually monitoring the performance of staff ensuring compliance with both child protection procedures and the code of good practice. All staff within Amblecote Primary will adhere to the Guidance for Safer Working Practice for those working with Children and Young People in Educational Settings (May 2019). This covers a wide range of issues around staff conduct.

If staff have concerns about a fellow colleague, they should follow the **Whistle Blowing** Procedures.

Where a staff member feels unable to raise an issue with their employer or feels that their genuine concerns are not being addressed, other channels are open to them such as the NSPCC Whistle Blowing helpline: **0800 028 0285**.

Supply Teachers

In some circumstances, Amblecote will have to consider an allegation against an individual not directly employed by the school, where our disciplinary procedures do not fully apply, for example, supply teachers provided by an employment agency. Whilst the school is not the employer of supply teachers, we will ensure allegations are dealt with properly in line with our Managing Allegations Against Staff Policy. In no circumstances will the school decide to cease to use a supply teacher due to safeguarding concerns, without finding out the facts and liaising with the local authority designated officer (LADO) to

determine a suitable outcome. The governing board will discuss with the agency whether it is appropriate to suspend the supply teacher, or redeploy them to another part of the school, whilst they carry out their investigation. Agencies will be kept fully involved and should co-operate in any enquiries from the LADO, police and/or children's social services. The school will usually take the lead because agencies do not have direct access to children or other school staff, so they will not be able to collect the facts when an allegation is made, nor do they have all the relevant information required by the LADO as part of the referral process. Supply teachers, whilst not employed by the school, are under the supervision, direction and control of the governing board when working in the school. They will be advised to contact their trade union representative if they have one, or a colleague for support. The allegations management meeting which is often arranged by the LADO will address issues such as information sharing, to ensure that any previous concerns or allegations known to the agency are taken into account by the school during the investigation. When using an agency, the school will inform the agency of its process for managing allegations.

Referral to Disclosure and Barring Services (DBS)

Any employee who is dismissed or resigns due to a child protection case will be referred to the DBS, who will consider the future risk and harm the individual possesses to vulnerable groups including children.

The Single Central Record must be in place and include all the areas covered in Keeping Children Safe in Education (2020). Further advice is sought from HR.

Information Sharing, Confidentiality and Record Keeping

Confidentiality is an issue, which needs to be discussed and fully understood by all those working with children, particularly in the context of Child Protection. Every effort should be made to ensure that confidentiality is maintained for all concerned. Information should be handled and disseminated on a need to know basis only.

Advice should be sought from the Social Care Team, who should approach the alleged abuser (or parents if the alleged abuser is a child). In line with Working Together to Safeguard Children (Revised December 2020), we recognise that the school does not need consent to share personal information provided there is a lawful basis. We will continue to ensure transparency and to inform parents and carers that we are sharing information for these purposes and seek to work co-operatively with them. In cases where agreement to an Early Help assessment cannot be obtained, we will consider how the needs of the child might be met.

Information will be stored in a secure place (kept securely away from other pupil's files) with restricted access to designated people and be maintained in line with data protection laws (e.g. that information is accurate, regularly updated, relevant and secure).

A paper based system is used at Amblecote Primary. All concerns are recorded within 24 hours and are signed and dated. Body maps are guidance in accordance with our recording guidance.

If a child who is subject to a child protection plan leaves, their information (CP records separate to other pupil files) will be securely forwarded to the Designated Safeguarding Lead at the new school, in line with the government guidance on the transfer of such records.

The governing board will ensure relevant staff have due regard to the relevant data protection principles, which allow them to share (and withhold) personal information, as provided for in the Data Protection Act 2018 and the GDPR. This includes:

- being confident of the processing conditions which allow them to store and share information for safeguarding purposes, including information which is sensitive and personal, and should be treated as 'special category personal data'
- understanding that 'safeguarding of children and individuals at risk' is a processing condition that allows practitioners

to share special category personal data. This includes allowing practitioners to share information without consent where there is good reason to do so, and that the sharing of information will enhance the safeguarding of a child in a timely manner but it is not possible to gain consent, it cannot be reasonably expected that a practitioner gains consent, or if to gain consent would place a child at risk.

- not providing pupils' personal data where the serious harm test under the legislation is met. For example, in a situation where a child is in a refuge or another form of emergency accommodation, and the serious harms test is met, the school must withhold providing the data in compliance with schools' obligations under the Data Protection Act 2018 and the GDPR. Where in doubt the school will seek independent legal advice.

*****The Data Protection Act 2018 and GDPR do not prevent the sharing of information for the purposes of keeping children safe. Fears about sharing information must not be allowed to stand in the way of the need to safeguard and promote the welfare and protect the safety of children*****

Involving Parents/Carers

In general, we will discuss any child protection concerns with parents/carers before approaching other agencies, and will seek their consent to making a referral to another agency. Appropriate staff will approach parents/carers after consultation with the Designated Safeguarding Lead. However, there may be occasions when the school will contact another agency before informing parents/carers because it considers that contacting them may increase the risk of significant harm to the child.

We all have a legal and moral responsibility for the welfare and safety of our children. If something concerns you about the welfare of a child within school then please contact the School's Designated Safeguarding Lead (Mrs Cook). If you have concerns which are not school based, you can call the children's services referral and advice service on 0300 555 0050 during office hours (9am - 5pm), contact the Emergency Duty Team on 0300 555 8574 (out of hours)

Parents/carers will be informed about our Child Protection Policy through the school website.

Early Help

If staff have any concerns about a child's welfare they should act on them immediately and speak to the DSL. The DSL will take the lead role when early help is appropriate. The LA should make a decision, within one working day of a referral being made, about the type of response that is required and should let the referrer/school know the outcome. Signs that early help may be required include:

- The child showing signs of being drawn into anti-social or criminal behaviour, including gang involvement and association with organised crime groups
- The child is at risk of modern slavery, trafficking or exploitation
- The child is showing early signs of abuse and/or neglect
- The child is at risk of being radicalised or exploited
- The child is a privately fostered child

The local authority guidance and thresholds can be found at:

<http://www.dudley.gov.uk/resident/care-health/children-and-family-care/early-help-for-children-and-families>

Amblecote Primary's local family centre is:

Stourbridge Family Centre,

Forge Road

Stourbridge,

West Midlands,

DY8 1XF.

Telephone Number: 01384 818780

Email: 01384 818780

Website: 01384 818780

The Curriculum

Child Protection and wider child safety issues will be addressed as part of a broad and balanced curriculum as appropriate, especially in Personal, Social and Health Education (PSHE), Information and Communication Technology

(ICT), Citizenship and Sex and Relationships Education and Online Safety. **Children are taught how to recognise when they are at risk and how to get help when they need it.**

The new DfE 2019 relationships education, relationships and sex education (RSE) and health education will be mandatory from September 2020 and we will be working towards the introduction of this.

<https://www.gov.uk/government/publications/relationships-education-relationships-and-sex-education-rse-and-health-education>

Looked After Children

The designated teacher for looked after children at Amblecote is: **JANE COOK**. She is responsible for promoting the educational achievement of children who are looked after and/or who have left care through adoption, special guardianship, child arrangement orders or who were adopted from state care outside England and Wales. The designated teacher has the skills, knowledge and understanding to keep previously looked after children safe. The designated teacher will work closely with the Virtual School Head (Mr Andrew Wright) and all other agencies, to ensure that prompt action is taken in respect of any concerns and that pupil premium funding is best used to support the progress of the looked after child. In the case of care leavers, the LA retains an ongoing responsibility which includes keeping in touch with them, preparing assessments of their needs and appointing a personal advisor to develop a pathway plan. Where applicable, the DSL will liaise with their LA personal advisor as necessary.

Other areas of our work

All our policies which address issues of power and potential harm, for example bullying, equal opportunities, physical handling, positive behaviour, will be linked to ensure a whole school approach. At Amblecote, we support staff in the use of appropriate physical contact in order to keep pupils safe using reasonable force. The use of reasonable force means using no more force than is needed and that the use of force may involve passive physical contact or active physical contact.

Our Child Protection policy cannot be separated from the general ethos of the school, which should ensure that pupils are treated with respect and dignity, taught to treat each other with respect, feel safe, have a voice, and are listened to.

Training and Development

The Amblecote Primary School will ensure that:

- all staff are kept up to date with Child Protection issues by formal training taking place regularly annually; online courses, external training and in-house training provided throughout the year
- clear reminders of all procedures will be given out to all staff in the Inset session at the start of every academic year, with frequent reminders at appropriate meetings/training events;
- the Designated Safeguarding Lead/s will take part in regular formal training sessions (Advanced level training at least every two years);
- all policies and procedures will follow DfE guidance on Child Protection issues;
- governors will be kept informed about procedures through the Child Protection Link Governor;
- good monitoring takes place of pupils identified as at risk;
- the team works closely with outside agencies to share information and co-ordinate support for the pupil.

In line with 'Keeping Children Safe in Education' (2020), the Head Teacher and all other staff, governors and volunteers who work with children will undertake training to equip them to carry out their responsibilities for Child Protection effectively. This will be kept up to date by refresher training at regular intervals for all staff. A Training Record is kept for all adults working in contact with children.

Use of school premises for non-school activities

Any arrangements where the school is hired for non-school activities are set out in the school hire agreement. Once a term a health and safety visit is carried out by our governors, Business Manager and Site Manager, within which the safeguarding arrangements for non-school activities are regularly reviewed.

Definitions and Indicators of Abuse

There are four types of child abuse. They are defined in the UK Government Guidance Keeping Children Safe in Education; statutory guidance for schools and colleges, September 2020 as follows:

1. Physical Abuse
2. Emotional Abuse
3. Sexual Abuse
4. Neglect

Physical Abuse

A form of abuse which may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

Emotional Abuse

The persistent emotional maltreatment of a child such as to cause severe and persistent adverse effects on the child's emotional development. It may involve conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability, as well as overprotection and limitation or exploration and learning, or preventing the child participating in normal social interaction.

It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyber bullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children.

Some level of emotional abuse is involved in all types of maltreatment of a child, though it may occur alone

Sexual Abuse

Involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example, rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse (including via the internet). Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children.

Neglect

The persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result of maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to:

Provide adequate food, clothing and shelter (including exclusion from home or abandonment); protect a child from physical and emotional harm or danger; ensure adequate supervision (including the use of inadequate caregivers); or ensure access to appropriate medical care of treatment. It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

Significant Harm

“Significant Harm is any Physical, Sexual or Emotional Abuse, Neglect, accident or injury that is sufficiently serious to adversely affect progress and enjoyment of life. Harm is defined as the ill treatment or impairment of health and development.”

Signs of Abuse

Recognising child abuse is not easy. It is every staff member's responsibility to be alert to whether or not child abuse has taken place or if a child is at significant risk of harm from someone. The following information should help to recognise the signs of possible abuse.

The physical signs of abuse may include:

- unexplained bruising, marks or injuries on any part of the body;
- multiple bruises - in clusters, often on the upper arm, outside of the thigh;
- cigarette burns;
- human bite marks;
- broken bones;
- scalds, with upward splash marks;
- multiple burns with a clearly demarcated edge.

Changes in behaviour that can also indicate physical abuse:

- fear of parents being approached for an explanation;
- aggressive behaviour or severe temper outbursts;
- flinching when approached or touched;
- reluctance to get changed, for example in hot weather;
- depression;
- withdrawn behaviour;
- running away from home.

Changes in behaviour which can indicate emotional abuse include:

- neurotic behaviour e.g. sulking, hair twisting, rocking;
- being unable to play;
- fear of making mistakes;
- sudden speech disorders;
- self-harm;
- fear of parent being approached regarding their behaviour.

Domestic Abuse

Domestic Violence can take many forms, including psychological, physical, sexual, financial and emotional. Amblecote Primary recognises that exposure to domestic abuse can have serious long-term emotional and psychological impact on children. We work with other key partners and share relevant information where there are concerns that domestic abuse may be an issue for a child or family or be placing a child at risk of harm

Any incident or pattern of incidents of controlling, coercive or threatening behaviour, violence or abuse between those aged 16 or over, who are or have been intimate partners or family members, regardless of gender or sexuality. This can encompass, but is not limited to, the types of abuse within the following guidance:

- NSPCCC:UK Domestic abuse signs, symptoms, effects
- Refuge: What is domestic violence/effects of domestic violence on children
- SafeLives: Young people and domestic abuse

Controlling behaviour – a range of acts designed to make a person subordinate and/or dependent by:

- Isolating them from support
- Exploiting them for personal gain
- Depriving them of the means needed for independence, resistance, and escape
- Regulating their everyday behaviour

Coercive Behaviour – an act or pattern of acts of assault, threats, humiliation, intimidation, or other abuse that is used to harm, punish or frighten the victim.

Psychological, Physical, Sexual, Financial and Emotional

Controlling behaviour is: A range of acts designed to make a person subordinate and/or dependent by isolating them from sources of support, exploiting their resources and capacities for personal gain, depriving them of the means needed for independence, resistance and escape and regulating their everyday behaviour.

Coercive behaviour is: An act or pattern of acts of assault, threats, humiliation and intimidation or other abuse that is used to harm, punish or frighten their victim.

Positive Mental Health, Well-being & Resilience

Positive mental health is the concern of the whole community and recognise that schools play a key part in this. Our school wants to develop the emotional well-being and resilience of all pupils and staff, as well as provide specific support for those with additional needs. We understand that there are risk factors, which increase someone's vulnerability and protective factors that can promote or strengthen resiliency. The more risk factors present in an individual's life, the more protective factors or supportive interventions are required to counterbalance and promote further growth of resilience.

All staff should also be aware that mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation. Only appropriately trained professionals should attempt to make a diagnosis of a mental health problem. Amblecote staff however, are well placed to observe children day-to-day and identify those whose behaviour suggests that they may be experiencing a mental health problem or be at risk of developing one. Where children have suffered abuse and neglect, or other potentially traumatic adverse childhood experiences, this can have a lasting impact throughout childhood, adolescence and into adulthood. It is key that staff are aware of how these children's experiences, can impact on their mental health, behaviour and education. If staff have a mental health concern about a child that is also a safeguarding concern, immediate action should be taken, following the child protection policy and speaking to the Designated Safeguarding Lead or a deputy.

(See school Social, Emotional and Mental Health (SEMH) Policy)

Children requiring mental health support

Mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation. The governing board will ensure there are clear systems and processes in place for identifying possible mental health problems, including routes to escalate and clear referral and accountability

systems. The school has access a range of advice to help them identify children in need of extra mental health support, this includes working with external agencies and using the mental health and behaviour in school's guidance. Public Health England has produced a range of resources to support secondary school teachers to promote positive health, wellbeing and resilience among young people, such as Rise Above.

Online Safety

The school ensures that pupils are taught to stay safe online as part of our broad and balance curriculum. The school makes use of a number of resources and tools to support online safety such as:

- Education for a Connected World framework from the UK Council for Child Internet Safety (UKCCIS)
- Use of filtering and monitoring systems linked internet and computer use (Esafe System Limited provide a weekly monitoring report)
- Guidance from PSHE Association
- Be Internet Legends by Parent Zone and Google
- Half-termly lessons & Assemblies devoted to safety when online.
- Parental workshops to teach safe practices in the home.

The government has published a new guidance document 'Teaching online safety in school (DfE, June 2019). It outlines to schools the importance of helping children and young people not only to use the internet safely, but also to give them opportunities to learn how to behave online. At Amblecote, our staff are made aware of the importance of teaching that is always age and developmentally appropriate. Teaching online safety in school says that there are many areas in the curriculum where the topics could be taught, not least in the new compulsory Relationships (Sex Education) and Health Education in place from September 2020. In these curriculum areas, pupils will be taught what positive, healthy and respectful online relationships look like. The guidance includes the following underpinning knowledge and behaviours:

- How to evaluate what pupils see online
- How to recognise techniques used for persuasion
- Online behaviour
- How to identify online risks
- How and when to seek support

Although the nature of online harms is discussed within the curriculum, it is not until we look through the comprehensive risk in this document that together they reflect how harmful the internet might be. It is easy to see the potential harms, but it important that we communicate them in a safe and beneficial way, so that pupils remain respectfully cautious and not fearful. Potential harms covered in the guidance include:

- Age restrictions
- Content: How it can be used and shared
- Disinformation, misinformation and hoaxes
- Fake websites and scam emails
- Fraud (online)
- Password phishing
- Personal data
- Persuasive design which keeps 'users online for longer than they might have planned or desired'
- Privacy settings
- Targeting of online content
- Abuse (online)

- Challenges [to do something and post about it]
- Content which incites...hate, violence
- Fake profiles
- Grooming
- Live streaming
- Pornography
- Unsafe communication
- Impact on confidence (including body confidence)
- Impact on quality of life, physical and mental health and relationships
- Online vs. offline behaviours
- Reputational damage
- Suicide, self-harm and eating disorders

In an important section, the Teaching online safety in school guidance, reminds schools that when teaching about these safeguarding topics (and others), staff should be mindful that there may be a child or young person in the lesson who is or has been affected by these harms. During or after a lesson, a pupil may be prompted to disclose about something that may have happened online. The guidance says that it is good practice to consult the Designated Safeguarding Lead 'when considering and planning any safeguarding related lessons or activities (including online) as they will be best placed to reflect and advise on any known safeguarding cases, and how to support any pupils who may be especially impacted by a lesson'.

Teaching online safety in school should be read in conjunction with Education for a Connected World Framework (UKCIS, 2018 - <https://www.gov.uk/government/publications/education-for-a-connected-world>) which offers 'age specific advice about the online knowledge and skills that pupils should have the opportunity to develop at different stages of their lives.'

The Teaching online safety in school guidance emphasises the need for a whole school approach so that it is embedded in everything the school does including:

- Creating a culture that incorporates the principles of online safety across all elements of school life
- Proactively engaging staff, pupils and parents/carers
- Reviewing and maintaining the online safety principles
- Embedding the online safety principles
- Modelling the online safety principles consistently

Pupils are not allowed to bring their mobile phones to school.

If children need to contact home, they can so do with the support of the school office team.

If in exceptional circumstances, a child brings a phone into school, they must hand it into the School Office for safe keeping until the end of the school day.

Modern Slavery

Modern day slavery refers to any form of forced human exploitation for labour or service, such as human trafficking and forced labour.

Multi-agency working

Amblecote contributes to multi-agency working in line with statutory guidance Working Together to Safeguard Children. New safeguarding partners and child death review partner arrangements are now in place. Locally, the three safeguarding partners (the local authority; a clinical commissioning group within the local authority; and the chief officer of police within the local authority area) will make arrangements to work together with appropriate relevant agencies to safeguard and promote the welfare of local children, including identifying and responding to their needs. It is especially important that schools and colleges understand their role in the three safeguarding partner arrangements. Governing bodies, proprietors and their senior leadership teams, especially their designated safeguarding leads, should make themselves aware of and follow their local arrangements. The three safeguarding partners have a shared and equal duty to work together to safeguard and promote the welfare of children. To fulfil this role, they must set out how they will work together and with any relevant agencies. Relevant agencies are those organisations and agencies whose involvement that the three safeguarding partners consider may be required to safeguard and promote the welfare of children with regard to local need. The three safeguarding partners will have set out in their published arrangements which organisations and agencies they will be working with and the expectations placed on any agencies and organisations by the arrangements. The three safeguarding partners should make arrangements to allow the school to be fully engaged, involved and included in safeguarding arrangements. It is expected that, locally, the three safeguarding partners will name schools and colleges as relevant agencies and will reach their own conclusions on the best way to achieve the active engagement with individual institutions in a meaningful way. If named as a relevant agency, schools and colleges, in the same way as other relevant agencies, are under a statutory duty to co-operate with the published arrangements. The school will work with social care, the police, health services and other services to promote the welfare of children and protect them from harm. This includes providing a coordinated offer of early help when additional needs of children are identified and contributing to inter-agency plans to provide additional support to children subject to child protection plans. The school will allow access for children's social care from the local authority and, where appropriate, from a placing local authority, for that authority to conduct, or to consider whether to conduct, a section 17 or a section 47 assessment.

Honour Based Violence (FBV)

So called 'honour-based' violence (HBV) encompasses crimes which have been committed to protect or defend the honour of the family and/ or the community, including Female Genital Mutilation (FGM), forced marriage and practices such as breast ironing. All forms of HBV are abuse (regardless of motivation) and should be handled and escalated as such. If a member of staff has any doubt or concern, it should be reported immediately to the designated safeguarding lead.

Female Genital Mutilation (FGM)

Professionals in all agencies, and individuals and groups in relevant communities, need to be alert to the possibility of a girl being at risk of FGM, or already having suffered FGM. There is a range of potential indicators that a child or young person may be at risk of FGM, which individually may not indicate risk but if there are two or more indicators present this could signal a risk to the child or young person.

Risk factors for FGM include:

- Low level of integration into UK society
- Mother or a sister who has undergone FGM
- Girls who are withdrawn from PSHE

- Visiting female elder from the country of origin
- Being taken on a long holiday to the country of origin
- Talk about a 'special' procedure to become a woman
- FGM may be likely if there is a visiting female elder, there is talk of a special procedure or celebration to become a woman, or parents wish to take their daughter out-of-school to visit an 'at-risk' country (especially before the summer holidays)

Indications that FGM may have already taken place may include:

- difficulty walking, sitting or standing and may even look uncomfortable.
- spending longer than normal in the bathroom or toilet due to difficulties urinating.
- spending long periods of time away from a classroom during the day with bladder or menstrual problems.
- frequent urinary, menstrual or stomach problems.
- prolonged or repeated absences from school or college, especially with noticeable behaviour changes (e.g. withdrawal or depression) on the girl's return
- reluctance to undergo normal medical examinations.
- confiding in a professional without being explicit about the problem due to embarrassment or fear.
- talking about pain or discomfort between her legs

Professionals should note that girls at risk of FGM may not yet be aware of the practice or that it may be conducted on them, so sensitivity should always be shown when approaching the subject. Staff should activate local safeguarding procedures, using existing national and local protocols for multi-agency liaison with police and children's social care. The Serious Crime Act 2015 sets out a mandatory duty on professionals (including teachers) to notify police when they discover that FGM appears to have been carried out on a girl under 18. In schools, this will usually come from a disclosure.

Teachers must personally report to the police cases where they discover that an act of FGM appears to have been carried out; and discuss any such cases with the safeguarding lead and children's social care. The duty does not apply in relation to at risk or suspected cases.

Child Sexual Exploitation (CSE) / Child Criminal Exploitation (CCE)

"Children and young people who are sexually exploited are the victims of child sexual abuse, and their needs require careful assessment. They are likely to be in need of welfare services and - in many cases - protection under the Children Act 1989. This group may include children who are sexually abused through the misuse of technology, coerced into sexual activity by criminal gangs or the victims of trafficking".

Child sexual exploitation (CSE) involves exploitative situations, contexts and relationships where young people receive something (for example food, accommodation, drugs, alcohol, gifts, money or in some cases simply affection) as a result of engaging in sexual activities. A child may also be sexually exploited for the financial advantage or increased status of the perpetrator or facilitator. Sexual exploitation can take many forms ranging from the seemingly 'consensual' relationship where sex is exchanged for affection or gifts, to serious organised crime by gangs and groups within an increasingly widespread form of harm that is a typical feature of county lines criminal activity. Child Criminal Exploitation (CCE) includes drug networks or gangs grooming and exploiting children to carry drugs and money from urban areas to suburban areas, rural areas, seaside and market towns. The key to identifying potential involvement in **county lines** is 'missing episodes', where the victim may have been trafficked for the purpose of transporting drugs. In such cases, the school may consider a referral to the National Referral Mechanism. What marks out exploitation is an imbalance of power in the relationship. The perpetrator always holds some kind of power over the victim which increases as the exploitative relationship develops. Sexual exploitation involves varying

degrees of coercion, intimidation or enticement, including unwanted pressure from peers to have sex. Child sexual exploitation does not always involve physical contact; it can also occur through the use of technology including cyberbullying, 'sexting' and grooming. However, it is also important to recognise that some young people who are being sexually exploited do not exhibit any external signs of this abuse.

Statutory definition of Child Sexual Exploitation

Child sexual exploitation is a form of child sexual abuse. It occurs where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child or young person under the age of 18 into sexual activity (a) in exchange for something the victim needs or wants, and/or (b) for the financial advantage or increased status of the perpetrator or facilitator. The victim may have been sexually exploited even if the sexual activity appears consensual. Child sexual exploitation does not always involve physical contact; it can also occur through the use of technology. **DfE Child sexual exploitation – Definition and guide for practitioners, local leaders and decision makers working to protect children from child sexual exploitation – February 2017**

Indicators of CSE/CCE may include:

- Acquisition of money, clothes, mobile phones, etc. without plausible explanation;
- Gang-association and/or isolation from peers/social networks;
- Exclusion or unexplained absences from school, college or work;
- Leaving home/care without explanation and persistently going missing or returning late;
- Excessive receipt of texts/phone calls;
- Returning home under the influence of drugs/alcohol;
- Inappropriate sexualised behaviour for age/sexually transmitted infections;
- Evidence of/suspicions of physical or sexual assault;
- Relationships with controlling or significantly older individuals or groups;
- Multiple callers (unknown adults or peers);
- Frequenting areas known for sex work;
- Concerning use of internet or other social media;
- Increasing secretiveness around behaviours;
- Self-harm or significant changes in emotional well-being.

Although the following vulnerabilities increase the risk of CSE/CCE, it must be remembered that not all children with these indicators will be exploited. Exploitation can occur without any of these issues.

Having a prior experience of neglect, physical and/or sexual abuse;

Lack of a safe/stable home environment, now or in the past (domestic violence or parental substance misuse, mental health issues or criminality, for example);

- recent bereavement or loss;
- social isolation or social difficulties;
- absence of a safe environment to explore sexuality;
- economic vulnerability;
- homelessness or insecure accommodation status;
- connections with other children and young people who are being sexually exploited;
- family members or other connections involved in adult sex work;
- having a physical or learning disability;
- being in care (particularly those in residential care and those with interrupted care histories); and
- sexual identity.

County Lines

County lines is a term used to describe gangs and organised criminal networks involved in exporting illegal drugs (primarily crack cocaine and heroin) into one or more importing areas [within the UK], using dedicated mobile phone lines or other form of "deal line". Exploitation is an integral part of the county lines offending model with children and vulnerable adults

exploited to move [and store] drugs and money. Offenders will often use coercion, intimidation, violence (including sexual violence) and weapons to ensure compliance of victims. Children can be targeted and recruited into county lines in a number of locations including schools, further and higher educational institutions, pupil referral units, special educational needs schools, children's homes and care homes. Children are often recruited to move drugs and money between locations and are known to be exposed to techniques such as 'plugging', where drugs are concealed internally to avoid detection. Children can easily become trapped by this type of exploitation as county lines gangs create drug debts and can threaten serious violence and kidnap towards victims (and their families) if they attempt to leave the county lines network. One of the ways of identifying potential involvement in county lines are missing episodes (both from home and school), when the victim may have been trafficked for the purpose of transporting drugs and a referral to the National Referral Mechanism¹⁰³ should be considered. If a child is suspected to be at risk of or involved in county lines, a safeguarding referral should be considered alongside consideration of availability of local services/third sector providers who offer support to victims of county lines exploitation Like other forms of abuse and exploitation, county lines exploitation:

- can affect any child or young person (male or female) under the age of 18 years;
- can affect any vulnerable adult over the age of 18 years;
- can still be exploitation even if the activity appears consensual;
- can involve force and/or enticement-based methods of compliance and is often accompanied by violence or threats of violence;
- can be perpetrated by individuals or groups, males or females, and young people or adults; and
- is typified by some form of power imbalance in favour of those perpetrating the exploitation.

Both staff and students will receive awareness training to allow for more effective referrals to take place. The attendance officer will track absence of all students vigilantly and notify DSL immediately of any concerns regarding a child missing from education.

Sexting

Electronic forms of communication have developed rapidly in recent years and the vast majority of children have access to a computer and or mobile phone. Children are frequently exposed to internet abuse including sexual abuse and bullying by phone is on the increase. Any child thought to be the victim of such abuse should therefore be regarded as in need of protection.

In cases of 'sexting' we follow guidance given to schools and colleges by the UK Council for Child Internet Safety (UKCCIS) published in 2017: 'Sexting in schools and colleges, responding to incidents, and safeguarding young people'.

Contextual Safeguarding

All staff, but especially the designated safeguarding lead (or deputy) will consider the context within which safeguarding incidents and/or behaviours occur. This is known as contextual safeguarding, which simply means assessments of children should consider whether wider environmental factors are present in a child's life that are a threat to their safety and/or welfare. Contextual Safeguarding helps focus on the fact that young people experience harm beyond their families and recognises that the different relationships that young people form in their neighbourhoods, schools and online can feature violence and abuse. Parents and carers have little influence over these contexts, and young people's experiences of extra-familial abuse can undermine parent-child relationships. Contextual Safeguarding, therefore, expands the objectives of child protection systems, beyond focusing on families in recognition that young people are vulnerable to abuse in a range of social contexts. This allows any assessment to consider all of the available evidence and the full context of any abuse.

Children Missing Education (CME)

Children missing education are children of compulsory school age who are:

- Not on a school roll.
- Not being educated other than at school.
- Identified as having been out of any educational provision for a substantial period of time (4 weeks).

Children go missing from education for a number of reasons including:

- They don't start school at the appropriate time and so they do not enter the educational system.

- They are removed by their parents.
- Behaviour and/or attendance difficulties.
- They cease to attend, due to exclusion, illness or bullying.
- They fail to find a suitable school place after moving to a new area.
- The family move home regularly.
- Problems at home.

Where children have poor attendance or are regularly missing then the school works in close liaison with the Local Authority CME officer and admissions team.

Further information can be found can be found in 'Children missing education: statutory guidance for local authorities – September 2016

Private Fostering

A private fostering arrangement is one that is made privately (with involvement of the local authority) for the care of a child under the age of 16 years (under 18 if disabled) by someone other than a parent or close relative, in their own home, with the intention that it should last for 28 days or more. (A close family relative is defined as a grandparent, brother, sister, uncle or aunt and includes half – siblings and step-parents; it does not include great aunts or uncles, great grandparents or cousins) Given the 'hidden' nature of much private fostering, local authorities have a duty to raise awareness and needs to notify the local Children's Care department. Each party involved in a private fostering arrangement has a legal duty to inform the local authority 6 weeks before the arrangement is due to start. Not to do so is a criminal offence. It is important to note that although schools have a duty to inform the local authority, there is no duty for anyone, including the private foster carer or social workers to inform the school. However, the school will be clear on who has parental responsibility.

Children with Special Educational Needs and Disabilities

Amblecote Primary School is committed to working with children with special educational needs (SEN) and disabilities. As a school we understand that children with Special Educational Needs and disabilities (SEND) can face additional safeguarding challenges. Barrier can exist when recognising abuse and neglect in this group of children

This can include:

- Assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's disability without further exploration;
- That they may be more prone to peer group isolation than others;
- Children with SEN and disabilities can be disproportionately impacted by things like bullying without outwards showing any signs;
- Communication barriers and difficulties in overcoming these barriers.

Upskirting

At Amblecote, we have ensured that staff are aware of the changes to the Voyeurism (Offences) Act 2019 which criminalise the act of 'upskirting'. The Crown Prosecution Service (CPS) defines 'up skirting' as a colloquial term referring to the action of placing equipment such as a camera or mobile phone beneath a person's clothing to take a voyeuristic photograph without their permission. It is not only confined to victims wearing skirts or dresses and equally applies when men or women are wearing kilts, cassocks shorts or trousers. It is often performed in crowded public places, for example on public transport or at music festivals, which can make it difficult to notice offenders."

Prevent Strategy (Radicalisation and Extremism)

Amblecote Primary School is actively involved in the Prevent strategy. The school has a part to play in fostering shared values and promoting cohesion. Extremist ideology runs counter to the school and British values. Therefore,

our community aims to successfully promote respect and tolerance for others, the rights of all to live and study free from persecution of any kind, freedom of speech, democracy, the rule of law and equality of opportunity and treatment. Extremism promotes fear and division and actively seeks to cause destructive relationships between different communities. Our school strategy for preventing extremism has five key objectives:

1. To promote and reinforce school and British values; to create space for free and open debate; listen and support the learner voice and enable pupils to develop their self-knowledge, self-esteem and self-confidence.
2. To promote social cohesion by supporting inter-faith and inter-cultural dialogue and understanding, and to engage all students in playing a full and active role in wider engagement in society.
3. To ensure pupil safety and that the school is free from bullying, harassment and discrimination.
4. To provide support for pupils who may be at risk and offer appropriate sources of advice and guidance.
5. To ensure that pupils and staff are aware of their roles and responsibilities in preventing terrorism and radicalisation.

Our school, like all others, is required to identify a Prevent Single Point of Contact (SPOC) who will be the lead within the organisation for safeguarding in relation to protecting individuals from radicalisation and involvement in terrorism: this will normally be the Designated Safeguarding Lead.

The SPOC for Amblecote Primary School is Mrs Jane Cook. The responsibilities of the SPOC are described on page 29 and 30.

Indicators of Vulnerability to Radicalisation

1. Radicalisation refers to the process by which a person comes to support terrorism and forms of extremism leading to terrorism.
2. Extremism is defined by the Government in the Prevent Strategy as:
Vocal or active opposition to fundamental British values, including democracy, the rule of law, individual liberty and mutual respect and tolerance of different faiths and beliefs. We also include in our definition of extremism calls for the death of members of our armed forces, whether in this country or overseas.
3. Extremism is defined by the Crown Prosecution Service as:
The demonstration of unacceptable behaviour by using any means or medium to express views which:
 - Encourage, justify or glorify terrorist violence in furtherance of particular beliefs;
 - Seek to provoke others to terrorist acts;
 - Encourage other serious criminal activity or seek to provoke others to serious criminal acts; or
 - Foster hatred which might lead to inter-community violence in the UK.
4. There is no such thing as a “typical extremist”: those who become involved in extremist actions come from a range of backgrounds and experiences, and most individuals, even those who hold radical views, do not become involved in violent extremist activity.
5. Pupils may become susceptible to radicalisation through a range of social, personal and environmental factors - it is known that violent extremists exploit vulnerabilities in individuals to drive a wedge between them and their families and communities. It is vital that school staff are able to recognise those vulnerabilities.
6. Indicators of vulnerability include:
 - Identity Crisis – the pupil is distanced from their cultural / religious heritage and experiences discomfort

- about their place in society;
 - Personal Crisis – the pupil may be experiencing family tensions; a sense of isolation; and low self-esteem; they may have dissociated from their existing friendship group and become involved with a new and different group of friends; they may be searching for answers to questions about identity, faith and belonging;
 - Personal Circumstances – migration; local community tensions; and events affecting the pupil’s country or region of origin may contribute to a sense of grievance that is triggered by personal experience of racism or discrimination or aspects of Government policy;
 - Unmet Aspirations – the pupil may have perceptions of injustice; a feeling of failure; rejection of civic life;
 - Experiences of Criminality – which may include involvement with criminal groups, imprisonment, and poor resettlement / reintegration;
 - Special Educational Need – pupils may experience difficulties with social interaction, empathy with others, understanding the consequences of their actions and awareness of the motivations of others.
7. However, this list is not exhaustive, nor does it mean that all young people experiencing the above are at risk of radicalisation for the purposes of violent extremism.
8. More critical risk factors could include:
- Being in contact with extremist recruiters;
 - Accessing violent extremist websites, especially those with a social networking element;
 - Possessing or accessing violent extremist literature;
 - Using extremist narratives and a global ideology to explain personal disadvantage;
 - Justifying the use of violence to solve societal issues;
 - Joining or seeking to join extremist organisations; and
 - Significant changes to appearance and / or behaviour;
 - Experiencing a high level of social isolation resulting in issues of identity crisis and / or personal crisis.

Preventing Violent Extremism - Roles and Responsibilities of the Single Point of Contact (SPOC)

The SPOC is responsible for:

- Ensuring that staff of the school are aware of who is the SPOC in relation to protecting pupils from radicalisation and involvement in terrorism;
- Maintaining and applying a good understanding of the relevant guidance in relation to preventing pupils from becoming involved in terrorism, and protecting them from radicalisation by those who support terrorism or forms of extremism which lead to terrorism;
- Raising awareness about the role and responsibilities of the school in relation to protecting pupils from radicalisation and involvement in terrorism;
- Monitoring the effect in practice of the school’s RE curriculum and assembly policy to ensure that they are used to promote community cohesion and tolerance of different faiths and beliefs;
- Raising awareness within the school about the safeguarding processes relating to protecting pupils from radicalisation and involvement in terrorism;
- Acting as the first point of contact within the school for case discussions relating to pupils who may be at risk of radicalisation or involved in terrorism;
- Collating relevant information from/ in relation to referrals of vulnerable pupils into the Channel** process;

- attending Channel** meetings as necessary and carrying out any actions as agreed;
- Reporting progress on actions to the Channel** Co-ordinator; and
- Sharing any relevant additional information in a timely manner.

** Channel is a multi-agency approach to provide support to individuals who are at risk of being drawn into terrorist related activity. It is led by the West Midlands Police Counter-Terrorism Unit, and it aims to

- Establish an effective multi-agency referral and intervention process to identify vulnerable individuals;
- Safeguard individuals who might be vulnerable to being radicalised, so that they are not at risk of being drawn into terrorist-related activity; and
- Provide early intervention to protect and divert people away from the risks they face and reduce vulnerability.

Operation Encompass

Operation Encompass operates in the majority of police forces across England. It helps police and schools work together to provide emotional and practical help to children. The system ensures that when police are called to an incident of domestic abuse, where there are children in the household who have experienced the domestic incident, the police will inform the key adult (usually the designated safeguarding lead) in school before the child or children arrive at school the following day. This ensures that the school has up to date relevant information about the child's circumstances and can enable support to be given to the child according to their needs. Police forces not signed up to operation encompass will have their own arrangements in place. National Domestic Abuse Helpline Refuge runs the National Domestic Abuse Helpline, which can be called free of charge and in confidence, 24 hours a day on 0808 2000 247. Its website provides guidance and support for potential victims, as well as those who are worried about friends and loved ones. It also has a form through which a safe time from the team for a call can be booked. Additional advice on identifying children who are affected by domestic abuse and how they can be helped is available at:

- NSPCC- UK domestic-abuse Signs Symptoms Effects
- Refuge what is domestic violence/effects of domestic violence on children
- SafeLives: young people and domestic abuse.

Children Potentially at Greater Risk of Harm

Children who need a social worker (Child in Need and Child Protection Plans) may need a social worker due to safeguarding or welfare needs. Children may need this help due to abuse, neglect and complex family circumstances. A child's experiences of adversity and trauma can leave them vulnerable to further harm, as well as educationally disadvantaged in facing barriers to attendance, learning, behaviour and mental health. Local authorities should inform the school if a child has a social worker, and the Designated Safeguarding Lead will hold and use this information so that decisions can be made in the best interests of the child's safety, welfare and educational outcomes. Where children need a social worker, this will inform decisions about safeguarding (for example, responding to unauthorised absence or missing education where there are known safeguarding risks) and about promoting welfare (for example, considering the provision of pastoral and/or academic support, alongside action by statutory services).

(Findings from the Children in Need review, 'Improving the educational outcomes of Children in Need of help and protection' contains further information; the conclusion of the review, 'Help, protection, education' sets out action Government is taking to support this)

Implementation, Review and Monitoring

Implementation will take place by ensuring this policy is discussed at the full governing body meeting and ensuring all staff are made aware of its existence.

This Policy will be monitored and reviewed on an annual basis and whenever significant changes to legislation, guidance or changes to local procedures require it.

The cover page of this policy states the dates of review ratification by the Governing Body.

Dealing with a Disclosure of Abuse

When a child tells me about abuse s/he has suffered, what must I remember?

- Stay calm.
- Do not communicate shock, anger or embarrassment.
- Reassure the child. Tell her/him you are pleased that s/he is speaking to you.
- Never enter into a pact of secrecy with the child. Assure her/him that you will try to help but let the child know that you will have to tell other people in order to do this. State who this will be and why.
- Tell her/him that you believe them. Children very rarely lie about abuse; but s/he may have tried to tell others and not been heard or believed.
- Tell the child that it is not her/his fault.
- Encourage the child to talk but do not ask "leading questions" or press for information.
- Listen and remember.
- Check that you have understood correctly what the child is trying to tell you.
- Praise the child for telling you. Communicate that s/he has a right to be safe and protected.
- Do not tell the child that what s/he experienced is dirty, naughty or bad.
- It is inappropriate to make any comments about the alleged offender.
- Be aware that the child may retract what s/he has told you. It is essential to record all you have heard.
- At the end of the conversation, tell the child again who you are going to tell and why that person or those people need to know.
- As soon as you can afterwards, make a detailed record of the conversation using the child's own language. Include any questions you may have asked. Do not add any opinions or interpretations via CPOMs.

NB It is not education staff's role to seek disclosures. Their role is to observe that something may be wrong, ask about it, listen, be available and try to make time to talk.

Immediately afterwards

You must not deal with this yourself. Clear indications or disclosure of abuse must be reported to children's social care without delay, by the Designated Safeguarding Lead / the Head teacher.

Children making a disclosure may do so with difficulty, having chosen carefully to whom they will speak. Listening to and supporting a child/young person who has been abused can be traumatic for the adults involved. Support for you will be available from your Designated Safeguarding Lead / Head teacher.

What to do if you are concerned:

Concerns outside the immediate environment (e.g. a parent or carer)

- Report your concerns to the, *Designated Safeguarding Lead* who should contact Social Care Team or the Police as soon as possible.
- If the *Designated Safeguarding Lead* is not available, then the deputy or the person currently responsible for the school should be informed. (This is to ensure there is no delay in seeking advice or making a referral).
- Social Care Team and the *Designated Safeguarding Lead* will decide how to involve the parents/carers. Parents should not be informed if to do so would increase risk to the child'.
- Maintain confidentiality on a **need to know** basis only.

Information for social care or the police about suspected abuse

To ensure that this information is as helpful as possible, a detailed record should always be made at the time of the disclosure/concern, which should include the following:

- The reasons for your concern
- Full name and date of birth of the child
- Names and dates of birth of the child's family/household members
- Other agencies/professionals involved with the family
- The child's first language and any special needs
- The child's developmental needs, family and environmental factors and parenting capacity
- Any work you may have already undertaken with the child and family

Responding to allegations or suspicions (about someone working with children or young people)

It is not the responsibility of anyone working within Amblecote Primary School in a paid or unpaid capacity to decide whether or not child abuse has taken place. However, there is a responsibility to act on any concerns by reporting these to the appropriate officer or the appropriate authorities.

Amblecote Primary School will ensure all staff/volunteers that it will fully support and protect anyone, who in good faith reports his or her concern that a colleague is, or may be, abusing a child.

All allegations or suspicions of abuse will be taken seriously and treated in accordance with these procedures. They will be applied when there is an allegation or concern that any person, who works with children, in connection with their employment, voluntary or personal activity, has:

- Behaved in a way that has harmed a child, or may have harmed a child;
- Possibly committed a criminal offence against, or related to a child;
- Behaved towards a child or children in a way that indicates they are likely to pose a risk of harm to children

These behaviours will be considered within the context of the four categories of abuse (i.e. physical, sexual and emotional abuse and neglect). This includes concerns relating to inappropriate relationships between members of staff and children or young people, for example:

- Having a sexual relationship with a child under 18 if in a position of trust in respect of that child, even if consensual (*s16-19 Sexual Offences Act 2003*);
- 'Grooming', i.e. meeting a child under 16 with intent to commit a relevant offence (*s15 Sexual Offences Act 2003*);
- Other 'grooming' behaviour giving rise to concerns of a broader child protection nature (e.g. inappropriate text/email messages or images, gifts, socialising etc.);
- Possession of sexual images of children/pseudo-photographs of children.

The definition of working with children includes paid and unpaid staff, volunteers and carers (including foster and adoptive carers). It may include everyone who works at Amblecote Primary School including administrative and other support staff.

Action if there are concerns

Concerns about poor practice:

- If, following consideration, the allegation is clearly about poor practice; the Head Teacher will deal with it as a misconduct issue.
- If the allegation is about poor practice by the Designated, *Safeguarding Lead*, or if the matter has been handled inadequately and concerns remain, it should be reported to the Head Teacher/Chair of Governors who will decide on whether disciplinary action should be taken and the next steps to take.

Concerns about suspected abuse

- Any suspicion that a child has been abused by either a member of staff or a volunteer must be reported to the Head Teacher, who will take such steps as considered necessary to ensure the safety of the child in question and any other child who may be at risk.
- The Head Teacher will refer the allegation to the Social Care Team who may involve the Police. All allegations against people who work with children must be passed onto the DO (Designated Officer for Managing Allegations).
- The parents or carers of the child will be contacted as soon as possible following advice from the Social Care Team.
- If a Designated Safeguarding Lead is the subject of the suspicion/allegation, the concern must be shared with the Head Teacher. If the Head Teacher is the subject of the concern/ allegation, the concern must be shared with the Chair of Governors. The Chair of Governors will liaise with the Designated Officer for Managing Allegations and HR.

Internal Enquiries and Suspension

- The Head Teacher will liaise with the Chair of Governors and make an immediate decision about whether any individual accused of abuse should be temporarily suspended pending further police and social care inquiries. Advice can also be sought from the Human Resources Section and the DO (Designated Officer for Managing Allegations).
- Irrespective of the findings of the Social Care Team or Police inquiries the Head Teacher/Chair of Governors will assess all individual cases to decide whether an individual can be reinstated and how this can be sensitively handled. This may be a difficult decision; particularly where there is insufficient evidence to uphold any action by the police. In such cases, the Chair of Governors and Head Teacher must reach a decision based upon the available information which could suggest that on a balance of probability; it is more likely than not that the allegation is true. The welfare of the child should remain of paramount importance throughout.

PROCESS FOR RECORDING AND REPORTING A CONCERN ABOUT A CHILD

Name Of DSL And Deputy DSLs:
Jane Cook & Marie Pickett, Laura Skirving, Jodie Careless, Alex Price, Gillian Dunckley, Deb German, Hayley Perigo, Eve Bradley

Safeguarding Governor:
Jane Nethercott

Complete entry on a school concern form (DSL MUST receive a concern in writing)

Local Authority DO/Risk: (For concerns about an Adult/Person in Position of Trust)

Contact Details: Yvonne Nelson Brown Tel: 01384 – 813110

Deliver/Report all concerns to: DSL

DSL reviews concern, identifies level of need and makes a decision about the Next Steps

| | | |

Actions where there are concerns about a child

Temporary Policy Addendum:

COVID-19 school closure arrangements for Safeguarding and Child Protection at Amblecote Primary School

This Policy addendum is effective from 5th January 2021

COVID-19 additions to Safeguarding and Child Protection Policy at

Amblecote Primary School

Updated: Monday 27th July 2020

Shared with Staff: Tuesday 1st September 2020

Context

To support public health efforts to arrest the rising cases of Covid-19 (Coronavirus), on 4th January 2020, The Prime Minister announced a new national lockdown for England, with people instructed to "stay at home" as they did during March's first lockdown.

All primary schools, secondary schools and colleges were instructed to move to online learning.

This addendum of the Amblecote Safeguarding, and Child Protection policy contains details of our individual safeguarding arrangements in the following areas:

| | |
|---|----|
| Context | 38 |
| Vulnerable children | 39 |
| Critical workers | 39 |
| Attendance monitoring | 40 |
| Designated Safeguarding Lead | 40 |
| Reporting a concern | 40 |
| Safeguarding Training and induction | 41 |
| Safer recruitment/volunteers and movement of staff | 41 |
| Online safety in schools and colleges..... | 42 |
| Children and online safety away from school and college | 42 |
| Supporting children not in school | 43 |
| Supporting children in school..... | 44 |
| Peer on Peer Abuse | 44 |
| Support from the Multi-Academy Trust..... | 44 |

Key contacts

Remain as per the School Safeguarding and Child Protection Policy.

Vulnerable children

Vulnerable children and young people include those who:

- are assessed as being in need under section 17 of the Children Act 1989, including children and young people who have a child in need plan, a child protection plan or who are a looked-after child;
- have an education, health and care (EHC) plan;
- have been identified as otherwise vulnerable by educational providers or local authorities (including children's social care services), and who could therefore benefit from continued full-time attendance, this might include:
 - children and young people on the edge of receiving support from children's social care services or in the process of being referred to children's services
 - adopted children or children on a special guardianship order
 - those at risk of becoming NEET ('not in employment, education or training')
 - those living in temporary accommodation
 - those who are young carers
 - those who may have difficulty engaging with remote education at home (for example due to a lack of devices or quiet space to study)
 - care leavers
 - others at the provider and local authority's discretion including pupils and students who need to attend to receive support or manage risks to their mental health.

Eligibility for free school meals in and of itself is not a determining factor in assessing vulnerability.

Senior leaders, especially the Designated Safeguarding Lead (and deputy) know who our most vulnerable children are. They have the flexibility to offer a place to those on the edge of receiving children's social care support.

Amblecote will continue to work with and support children's social workers to help protect vulnerable children. This includes working with and supporting children's social workers and the local authority virtual school head (VSH) for looked-after and previously looked-after children. The lead person for this will be: Jane Cook

There is an expectation that vulnerable children who have a social worker will attend an education setting, so long as they do not have underlying health conditions that put them at increased risk.

In circumstances where a parent does not want to bring their child to an education setting, and their child is considered vulnerable, the social worker and Designated Safeguarding Lead will explore the reasons for this directly with the parent.

Where parents are concerned about the risk of the child contracting COVID19, the school or the social worker will talk through these anxieties with the parent/carer following the advice set out by Public Health England.

Amblecote will encourage our vulnerable children and young people to attend school, including remotely if needed.

Critical workers

Parents whose work is critical to the coronavirus (COVID-19) and EU transition response include those who work in health and social care and in other key sectors outlined in the link to government guidance:

<https://www.gov.uk/government/publications/coronavirus-covid-19-maintaining-educational-provision/guidance-for-schools-colleges-and-local-authorities-on-maintaining-educational-provision>

Attendance monitoring

In mainstream schools, all primary-age pupils who are not expected to be in school, should be recorded as 'code X'.

Children for whom on-site provision is being provided should be recorded in line with the normal school attendance requirements.

Shielding advice is currently in place, all children deemed clinically extremely vulnerable are advised not to attend school.

The school and social workers will agree with parents/carers whether children in need should be attending school – Amblecote will then follow up on any pupil that they were expecting to attend, who does not.

Amblecote will also follow up with any parent or carer who has arranged care for their child(ren) and the child(ren) subsequently do not attend.

Phone calls will be made to the parents/carers in these circumstances.

To support the above, the school will, when communicating with parents/carers and carers, confirm emergency contact numbers are correct and ask for any additional emergency contact numbers where they are available.

In all circumstances where a vulnerable child does not take up their place at school, or discontinues, the school will notify their social worker.

Designated Safeguarding Lead

Amblecote school has a Designated Safeguarding Lead (DSL) and a Deputy DSL.

The Designated Safeguarding Lead is: Jane Cook

The Deputy Designated Safeguarding Leads are: Marie Pickett, Laura Skirving, Jodie Careless, Alex Price, Hayley Perigo, Gill Dunckley, Deb German, Jo Sparrow

The optimal scenario is to have a trained DSL (or deputy) available on site. Where this is not the case a trained DSL (or deputy) will be available to be contacted via phone or online video - for example when working from home.

Where a trained DSL (or deputy) is not on site, in addition to the above, a senior leader will assume responsibility for co-ordinating safeguarding on site.

This might include updating and managing access to child protection online management system, CPOMS and liaising with the offsite DSL (or deputy) and as required liaising with children's social workers where they require access to children in need and/or to carry out statutory assessments at the school or college.

Amblecote staff and volunteers will have access to a trained DSL (or deputy).

The DSL will continue to engage with social workers, and attend all multi-agency meetings, which can be done remotely.

Reporting a concern

Where staff have a concern about a child, they should continue to follow the process outlined in the school Safeguarding Policy, this includes making a report via CPOMS, which can be done remotely. This must be logged by 4pm on the day the concern is raised.

If a concern is raised out of hours, the staff member should report the concern on CPOMS and alert the Designated

Safeguarding Lead using the contacts outlined in the school safeguarding policy. If a response is not received, you must continue to exhaust all contacts in the key contact section of the school child protection policy.

In the unlikely event that a member of staff cannot access their CPOMS from home, they should email the Designated Safeguarding Lead and Headteacher. This will ensure that the concern is received.

Staff are reminded of the need to report any concern immediately and without delay.

Where staff are concerned about an adult working with children in the school, they should report the concern to the Headteacher.

If there is a requirement to make a notification to the Headteacher whilst away from school, this should be done verbally over the phone and followed up with an email to the Headteacher to confirm the discussion. The Designated Safeguarding Lead must be included in this email, unless the concern relates to them.

Concerns around the Headteacher should be directed to the Chair of Governors via email.

The Governing Board will continue to offer support in the process of managing allegations.

Safeguarding Training and induction

All existing school staff have had safeguarding training and have read part 1 of Keeping Children Safe in Education (2020). The DSL should communicate with staff any new local arrangements, so they know what to do if they are worried about a child.

Where new staff are recruited, or new volunteers enter the school, they will continue to be provided with a safeguarding induction.

If staff are deployed from another education or children's workforce setting to our school, we will consider the DfE supplementary guidance on safeguarding children during the COVID-19 pandemic and will accept portability as long as the current employer confirms in writing that: -

- the individual has been subject to an enhanced DBS and children's barred list check
- there are no known concerns about the individual's suitability to work with children
- there is no ongoing disciplinary investigation relating to that individual

Upon arrival, they will be given a copy of the receiving school's child protection policy, confirmation of safeguarding processes and confirmation of DSL arrangements.

Designated Safeguarding Lead training

DSL training is very unlikely to take place whilst there remains a threat of the COVID 19 virus.

For the period COVID-19 measures are in place, a DSL (or deputy) who has been trained will continue to be classed as a trained DSL (or deputy) even if they miss their refresher training. All DSL training at Amblecote is current and up-to-date.

Safer recruitment/volunteers and movement of staff

It remains essential that people who are unsuitable are not allowed to enter the children's workforce or gain access to children.

When recruiting new staff, Amblecote will follow the DBS Filtering Guidance (2020) and continue to follow the relevant safer recruitment processes for schools, including, as appropriate, relevant sections in part 3 of Keeping Children Safe in Education (2020) (KCSIE).

If staff are deployed from another education or children's workforce setting to our school, we will take into account the DfE supplementary guidance on safeguarding children during the COVID-19 pandemic and will accept portability as long as the current employer confirms in writing that: -

- the individual has been subject to an enhanced DBS and children's barred list check
- there are no known concerns about the individual's suitability to work with children
- there is no ongoing disciplinary investigation relating to that individual

Where Amblecote are utilising volunteers, we will continue to follow the checking and risk assessment process as set out in paragraphs 167 to 172 of KCSIE. Under no circumstances will a volunteer who has not been checked be left unsupervised or allowed to work in regulated activity.

Amblecote will continue to follow the legal duty to refer to the DBS anyone who has harmed or poses a risk of harm to a child or vulnerable adult. Full details can be found at paragraph 163 of KCSIE.

Amblecote will continue to consider and make referrals to the Teaching Regulation Agency (TRA) as per paragraph 166 of KCSIE and the TRA's 'Teacher misconduct advice for making a referral.

Whilst acknowledging the challenge of the pandemic, it is essential from a safeguarding perspective that any school is aware, on any given day, which staff/volunteers will be in the school or college, and that appropriate checks have been carried out, especially for anyone engaging in regulated activity.

As such, Amblecote will continue to keep the single central record (SCR) up to date as outlined in paragraphs 148 to 156 in KCSIE.

Whilst acknowledging the challenge of the current national emergency, it is essential from a safeguarding perspective that the school is aware, on any given day, which staff/volunteers will be in the building, and that appropriate checks have been carried out, especially for anyone engaging in regulated activity. As such, Amblecote will continue to keep the single central record (SCR) up to date as outlined in paragraphs in KCSIE (2020).

Online safety in schools and colleges

Amblecote will continue to provide a safe environment, including online. This includes the use of an online filtering system.

Where students are using computers in school, appropriate supervision will be in place.

Children and online safety away from school and college

It is important that all staff who interact with children, including online, continue to look out for signs a child may be at risk. Any such concerns should be dealt with as per the Child Protection Policy and where appropriate referrals should still be made to children's social care and as required, the police.

Online teaching should follow the same principles as set out in the Remote Learning Policy.

Amblecote will ensure any use of online learning tools and systems is in line with privacy and data protection/GDPR requirements.

Below are some things to consider IF there are virtual lessons, especially where webcams are involved:

- No 1:1s, groups only
- Staff and children must wear suitable clothing, as should anyone else in the household.
- Any computers used should be in appropriate areas, for example, not in bedrooms; and the background should be blurred.
- The live class should be recorded so that if any issues were to arise, the video can be reviewed.
- Live classes should be kept to a reasonable length of time, or the streaming may prevent the family 'getting on' with their day.
- Language must be professional and appropriate, including any family members in the background.
- Staff must only use platforms specified by senior managers and approved by our IT network team / provider to communicate with pupils
- Staff should record, the length, time, date and attendance of any sessions held.

Supporting children not in school

Amblecote is committed to ensuring the safety and wellbeing of all its Children and Young people.

Where the DSL has identified a child to be on the edge of social care support, or who would normally receive pastoral-type support in school, they should ensure that a robust communication plan is in place for that child or young person.

Details of this plan must be recorded on CPOMS, as should a record of contact have made.

The communication plans can include remote contact, phone contact, door-step visits. Other individualised contact methods should be considered and recorded.

Amblecote and its DSLs will work closely with all stakeholders to maximise the effectiveness of any communication plan.

This plan must be reviewed regularly and where concerns arise, the DSL will consider any referrals as appropriate.

The school will share safeguarding messages on its website and communication platforms.

Amblecote recognises that school is a protective factor for children and young people, and the current circumstances, can affect the mental health of pupils and their parents/carers.

Teachers at Amblecote need to be aware of this in setting expectations of pupils' work where they are at home.

Home visits

In the last partial school closures, some home visits were required where no contact could be made for a particular pupil or where deep concerns were in place.

The necessity for these home visits was established by the DSL/leadership by through monitoring the vulnerable pupils calls, CPOMS and non-engagement.

The DSL will carry out an appropriate risk assessment prior to undertaking a home visit. Home visits will always be carried out by two members of staff.

Leaders will continue to dynamically risk assess any home visit and seek advice from the Designated Safeguarding Lead or Headteacher if concerns arise around the safety of staff making the visit.

Supporting children in school

Amblecote is committed to ensuring the safety and wellbeing of all its students.

Amblecote will continue to be a safe space for all children to attend and flourish. The Headteacher will ensure that appropriate staff are on site and staff to pupil ratio numbers are appropriate, to maximise safety.

Amblecote will refer to the Government guidance for education and childcare settings on how to implement social distancing and continue to follow the advice from Public Health England on handwashing and other measures to limit the risk of spread of COVID19.

Amblecote will ensure that where we care for children of critical workers and vulnerable children on site, we ensure appropriate support is in place for them. This will be bespoke to each child and recorded on CPOMS.

Where the school has concerns about the impact of staff absence – such as our Designated Safeguarding Lead or first aiders – we will discuss them immediately with the Governing Board.

Peer on Peer Abuse

Amblecote recognises that during the closure a revised process may be required for managing any report of such abuse and supporting victims.

Where a school receives a report of peer on peer abuse, they will follow the principles as set out in part 5 of KCSIE and of those outlined within of the Child Protection Policy.

The school will listen and work with the young person, parents/carers and any multi-agency partner required to ensure the safety and security of that young person.

Concerns and actions must be recorded on CPOMS and appropriate referrals made.

Support from the Governing Board

The Governing Board will provide support and guidance as appropriate to enable the DSL to carry out their role effectively.

This includes, remotely accessing Child Protection files for the purpose of quality assurance, support, guidance and direction.
