Pupil premium strategy statement

This statement details our school's use of pupil premium (and recovery premium for the 2021 to 2022 academic year) funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the effect that last year's spending of pupil premium had within our school.

School overview

Detail	Data
School name	Amblecote Primary
Number of pupils in school	297
Proportion (%) of pupil premium eligible pupils	70
Academic year/years that our current pupil premium strategy plan covers (3 year plans are recommended) *This is 3 year plan but the funding expenditure only covers the academic year 2021-22 and the plan will be reviewed annually.	2021 - 2024
Date this statement was published	December 2021
Date on which it will be reviewed	September 2022
Statement authorised by	Jane Cook
Pupil premium lead	Jane Cook
Governor / Trustee lead	Craige Brooks

Funding overview

Detail	Amount
Pupil premium funding allocation this academic year	£96,840
Recovery premium funding allocation this academic year	£10,875
Pupil premium funding carried forward from previous years (enter £0 if not applicable)	£0

Part A: Pupil premium strategy plan

Statement of intent

At Amblecote Primary School we target the use of Pupil Premium funding to ensure that our disadvantaged pupils receive the highest quality of education to enable them to reach their potential and to be as well prepared for the next stage of their education as their non-disadvantaged peers.

As a school, we recognise that these children can face a wide range of barriers which may impact on their learning.

Through the use of our Pupil Premium funding we aim to:

- Narrow the attainment gaps between disadvantaged pupils and their nondisadvantaged counterparts both within school and nationally.
- To increase reading opportunities via reading books matched to phonics and reading levels, in order to develop a love of reading. In addition, we strive to ensure that all pupils are able to read fluently and with good understanding to enable them to access the breadth of the curriculum.
- For all our pupils (disadvantaged or not) we aim to enhance oral language skills.
- We aim to provide pastoral support for both pupils and parents, identified by the school, those that are vulnerable.
- To equip children with strategies and skills to enable them to look after their social and emotional wellbeing and to develop resilience.
- We aim to increase attendance for those disadvantaged pupils and will work closely with families to ensure that their needs are being supported.

Quality first teaching is at the heart of our approach, with a focus on areas in which disadvantaged pupils require the most support. This is proven to have the greatest impact on closing the disadvantage attainment gap and at the same time will benefit the non-disadvantaged pupils in our school.

Our strategy is also integral to wider school plans for education recovery; notably in its targeted support through the spending of the School Led Tutoring Funding for pupils whose education has been worst affected, including non-disadvantaged pupils. These sessions will be delivered by teachers who the children are familiar with to ensure maximum impact.

Our approach will be responsive to common challenges and individual needs, rooted in robust diagnostic assessment.

To ensure they are effective we will:

- ensure disadvantaged pupils are challenged in the work that they're set
- act early to intervene at the point need is identified

• adopt a whole school approach in which all staff take responsibility for disadvantaged pupils' outcomes and raise expectations of what they can achieve

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Low starting points on entry to school, in particular, though not exclusively, in relation to communication and language skills.
2	Improve phonics and reading to enhance reading skills and influence reading for pleasure. Poor parental engagement of the disadvantaged pupils in reading
3	Narrowing the attainment gap in Reading, Writing and Maths
4	Continue to develop well-being opportunities to support Social, Emotional and Mental Health needs of our pupils
5	The attendance of disadvantaged pupils is not as high as their non- disadvantaged peers and often these pupils fall below average levels of attendance.
6	Many of our disadvantaged children do not have the rich and varied experiences as non-disadvantaged children seem to have, meaning that knowledge of the world and vocabulary acquisition is limited.

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
Phonics	Year 1 pupils achieve and exceed national average expected standard in the Phonics Screening Check (minimum of 95%)
Reading, Writing and Maths	Disadvantaged pupils achieve outcomes in-line with or above, national averages by the end of KS2.
Attendance	Ensure attendance of disadvantaged pupils is at least 96%
	For the attendance of our PP children to be no lower than the attendance for our non PP children.

	Attendance Officer will promptly call families who have an absent child without a reason. A tiered letter approach (from the HT and CoG) linked to attendance will be implemented Guidance from ESS will be followed to enforce fines for non-attendance.
Reading	PP children will develop a love of reading
	All pupils' books will be closely matched to their reading level.
	They will participate in Reading Champions and complete regular AR quizzes.
	PP children will be heard read by an adult in school.
	PP children will make good progress in Reading and their reading ages scores will improve.
Language Acquisition	Word of the day is implemented across the school for 15 minutes every day to widen the pupils' exposure to high quality vocabulary and its correct use.
	Improvements noted in pupils' vocabulary acquisition and this is reflected in both Reading and Writing progress and attainment.
Social, Emotional Mental Health	SEMH leader allocated to champion mental health and well-being throughout the school and co-ordinate support that we can offer.
	Strong focus on importance on mental health and well-being, linked closely to PHSE and RSE lessons.
	SEMH intervention groups and specialist support has a positive impact on children's mental health and well-being.

Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding) this academic year to address the challenges listed above.

Teaching (for example, CPD, recruitment and retention)

Budgeted cost: £54,175.66

Activity	Evidence that supports this approach	Challenge number(s) addressed
Quality First Teaching To ensure quality first teaching for PP children is consistently good across the school and over time.	EEF research states that: Improvements in quality first teaching have the greatest impact on pupils' progress. https://educationendowmentfoundati on.org.uk/school-themes/staff- deployment-development/ https://www.suttontrust.com/researc h-paper/great-teaching/	1, 2, 3 & 6
Implement Little Wandle Letters and Sounds Revised Phonics programme (including hard copy decodable books, resources and training for ALL teachers and TAs) Ensure access to decodable books online through Collins Big Cat.	The EEF shows phonics has a positive impact overall (+5 months) with very extensive evidence and is an important component in the development of early reading skills, particularly for children from disadvantaged backgrounds. Pupils should practise their decoding skills through regular home reading, particularly with phonetically decodable books. The subscription to online books allows us to allocate the precise books to each pupil at the right time.	1,2 & 3
Accelerated Reading Programme subscription Whole class copies of quality novels.	The EEF has strong evidence to support that developing approaches to reading comprehension improves outcomes (+6 months). With support of teachers, pupils can also read breadth of novels that broaden vocabulary and cultural capital. Schools should also target teaching and support through accurate assessment which is provided within AR.	2 & 3

Additional teacher hours to enable splitting mixed year classes into small groups for specific elements/subjects where there is great variation in appropriate year group curriculum (e.g. phonics and early reading, maths)	Maths and phonics curriculums are specific to year group and are difficult to combine in Y5/6 (maths) and Y1/2 (phonics/reading) without hindering progress of one group. EEF supports that teaching can be more effective with smaller classes (where teacher can deploy strategies to meet needs) and classes/groups of similar attainment	1,2 & 3
Word Ninja implemented across the school and taught on a daily basis. This clear system of consistency and progression will embed vocabulary in school. This approach aims	Research shows that certain practices for teaching vocabulary — an important building block for learning — such as making connections among words and repeatedly exposing students to content-related words, can accelerate young children's oral vocabulary development, regardless of family income.	1,2 & 3
to develop children's understanding and correct use of different types of vocabulary.	EEF 2017 'Improving Literacy in KS2' found extensive evidence for the efficacy of explicit teaching of new vocabulary. The document suggests that words may be pre-taught and discussed to aid reading comprehension, vocabulary should be explored in different contexts	

Targeted academic support (for example, tutoring, one-to-one support structured interventions)

Budgeted cost: £31,8622.34

Activity	Evidence that supports this approach	Challenge number(s) addressed
School Led Tutoring Funding for pupils whose education has been worst affected, including non- disadvantaged pupils. These small group sessions (15 hours) will be delivered by teachers who the children are familiar with to ensure maximum impact.	EEF research states that small group tuition has an average impact of up to 4 months additional progress over the course of a year. Small group tuition is most likely to be effective if it is targeted at pupils' specific needs. Diagnostic assessment can be used as the best way to target support. (This will be funded by the School Led Tutoring Grant and supplemented with funding from the Recovery Premium Funding)	1,2,3,4 & 6
Reading For Pleasure Purchase of new recommended reading books across the school	DfE Research Evidence on Reading for Pleasure Benefits of reading for pleasure: There is a growing body of evidence which illustrates the importance of reading for pleasure for both educational purposes as well as personal development (cited in Clark and Rumbold, 2006). Evidence suggests that there is a positive relationship between reading frequency, reading enjoyment and attainment (Clark 2011; Clark and Douglas 2011). Reading enjoyment has been reported as more important for children's educational success than their family's socio-economic status (OECD, 2002). There is a positive link between positive attitudes towards reading and scoring well on reading assessments (Twist et al, 2007). Regularly reading stories or novels outside of school is associated with higher scores in reading assessments (PIRLS, 2006; PISA, 2009).	1,2,3

	International evidence supports these	
	findings; US research reports that	
	independent reading is the best predictor of reading achievement	
	(Anderson, Wilson and Fielding, 1988).	
	Evidence suggests that reading for	
	pleasure is an activity that has	
	emotional and social consequences (Clark	
	and Rumbold, 2006).	
	 Other benefits to reading for pleasure include: text comprehension and 	
	grammar, positive reading attitudes,	
	pleasure in reading in later life,	
	increased general knowledge (Clark and	
D 1: \\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\	Rumbold, 2006).	4.0.0.4
Reading, Writing and	EEF research states that:	1,2,3,4
Maths Interventions. Establish 1:1 or small	 On average, one to one tuition is very effective at improving pupil outcomes. One 	
group interventions	to one tuition might be an effective strategy	
for disadvantaged	for providing targeted support for pupils that

age related	or are struggling in particular areas.	
expectations pre teach, same day	2. Tuition is more likely to make an impact if	
or specific skill-based	it is additional to and explicitly linked with	
intervention.	normal lessons.	
	_	
	3. One to one tuition can be expensive to	
	deliver, particularly when delivered by teachers. Approaches that either deliver	
	instruction through teaching assistants or in	
	small groups rather than one to one have	
	smaller positive effects, on average, but	
	may be a cost-effective solution to providing	
	targeted support.	
	4. For one to one tuition led by teaching	
	assistants, interventions are likely to be	
	particularly beneficial when the teaching	
	assistants are experienced, well-trained and	
	supported – for example, delivering a structured intervention.	
	Suddialed intervention.	
Vocabulary and	Speech and Language are one of the main	1,2,3, 4
speech and language	barriers to pupils progressing in reading,	
interventions	writing and maths and the wider curriculum.

identify speech and		
language problems		

and provides focused teaching and intervention activities to meet individual needs. Talk Boost is a targeted and evidenced based intervention, which supports language delayed children in EYFS and KS1 to make significant progress with their language and	Speech and language data show that if gaps in language are targeted then progress is accelerated.	
communication skills. 1:1 Pupil progress meetings with Teachers, HT and Phase Leaders track progress of PP pupils and timely interventions are put in place.	Time for ongoing professional dialogues regarding further support for these children will help to keep this as a priority. There is a collective responsibility for the PP children's progress in order to make accelerated progress. Staff will know who they are, their barriers to learning and any strategies needed to meet their educational and emotional needs.	1,2,3,4,& 6

Wider strategies (for example, related to attendance, behaviour, wellbeing)

Budgeted cost: **£11,824.84**

Activity	Evidence that supports this approach	Challenge number(s) addressed
Access to SEMH support through non-profit charity - Arts of Change	EEF evidence shows moderate impact from behaviour interventions. Emotional wellbeing should be seen as everyone's responsibility and needs to be a continual consideration in day to day classroom. EEF also state that Social and	4
	emotional learning (SEL) interventions seek to improve pupils' decision-making skills, interaction with others and their self- management of emotions, rather than focusing directly on the academic or cognitive elements of learning.	
Attendance Officer to work 1/2 day a week to analyse attendance and contact low attenders. Attendance Officer to complete first day call and work with HT to support	EEF research has found that poor attendance is linked to poor academic attainment across all stages. Evidence suggests that small improvements in attendance can lead to meaningful impacts for these outcomes.	1,2,3,4,5
families to raise attendance	NfER briefing for school leaders identifies addressing attendance and providing emotional support strategies as a key step. Attendance concerns, and reasons behind them, need to be followed up immediately. Pupils need regular opportunity to discuss their worries and be supported to address them more quickly. They need additional support in aspects such as behaviour, progress, attitude in class, attendance, completion of homework and opportunity to help identify underlying issues.	
All pupils have opportunity to learn instruments	Children who are able to follow their hobbies and passions without financial barriers will be able to	4 & 6

throughout their time	foster a love of music raising their	
at school.	self-esteem.	
	Some disadvantaged pupils who	
	need less academic support would	
	benefit from wider enrichment	
	opportunities.	
	EEF evidence also suggests that	
	pupils can make +3 months'	
	academic progress through arts	
	participation.	

Total budgeted cost: £ 97,862.84

Part B: Review of outcomes in the previous academic year

Pupil premium strategy outcomes

This details the impact that our pupil premium activity had on pupils in the 2020 to 2021 academic year.

Due to COVID-19, performance measures have not been published for 2020 to 2021, and 2020 to 2021 results will not be used to hold schools to account. Given this, please point to any other pupil evaluations undertaken during the 2020 to 2021 academic year, for example, standardised teacher administered tests or diagnostic assessments such as rubrics or scales.

If last year marked the end of a previous pupil premium strategy plan, what is your assessment of how successfully the intended outcomes of that plan were met?

0		<u> </u>
Strategy aims for	Target	Impact
disadvantaged pupils		
To improve the rate of academic progress (use of Birmingham Target Tracker).	Significantly narrow the gap between the progress of disadvantaged and non- disadvantaged pupils from individual starting points	Birmingham Target Tracker purchase and staff trained. Tracker is being implemented with targeted pupils to act as an intervention and assessment. Impact not yet seen due to delay in implementation caused by Covid.
To improve the rate of academic attainment (use of internal standardised NFER testing).	Significantly narrow the gap between the attainment of disadvantaged and nondisadvantaged pupils.	NFER assessments purchased across the school. Enforced school closures, meant that these were not used last academic year, but will be used this Autumn and again in the spring term.
To provide more experiential learning opportunities.	Greater breadth of curriculum and extracurricular opportunities lead to increased level of cultural capital.	Extra-curricular visits have not been allowed due to restrictions linked to Covid-19. This term, opportunities for visitors into school have been organised and as restrictions ease, more extra-curricular curricular opportunities will be arranged.

To support pupils with their SEMH needs.	in place in school to support	A counsellor from the charity Arts of Change, visits school weekly and has had a positive impact with many of our pupils and wider families.
To further improve the rate of attendance	Continue to narrow the attendance gap between disadvantaged and nondisadvantaged pupils.	Whilst attendance was impacted hugely last academic year, due to the effects of Covid 19, whole school attendance was 96.03% and that of PP pupils is was 93.14%

Externally provided programmes

Please include the names of any non-DfE programmes that you purchased in the previous academic year. This will help the Department for Education identify which ones are popular in England
